

## Fees and Refund Policy

Most courses will be funded under Federal and State contractual arrangements with the college where the student is enrolled. In situations where courses are not funded, CCM will charge the student pre-determined fees.

Where consumables and resources form part of the cost of enrolment, these fees are to be paid in addition to the nominated fee.

Students must ensure all VET fees are paid prior to commencement in the selected VET course. Once the VET course has commenced, no refunds of levies will be made for that semester, however, a pro rata refund system will apply for semesters in which students have not commenced.
